

Christine Calich

Started in Fire Industry in 2013. I report directly to the Fire Chief of Palos Heights Fire Protection District. My administrative daily duties include greeting visitors, data entry, handling payroll/bookkeeping records, accounts payable/accounts receivable and other record management duties.

I have been married for 36 years and have two fantastic children with one wonderful granddaughter. I am from a large family of 6 brothers and 6 sisters, being the baby of the family.

In my free time, I am involved in volunteering for the homeless shelter, church activities and fundraising for the American Cancer Society. I keep myself busy and I consider myself a detailed person. I am often called the "go to" person in my family.

I have been serving as a Director on the IFSAP Board since 2018. I enjoy participating and helping this organization and wish to continue doing so. My intentions are to continue providing my services as needed.
